## The Duke of Edinburgh's Award

This is a great way to have fun, make new friends and learn new things. The award has four parts:

- **FITNESS** – Do some exercise and get fitter.

If you complete everything, you get a certificate.

Write an email to Mr Jones, The Duke of Edinburgh's Award leader at our school. Describe yourself and say why you want to do the award.

## OUR CHANGING PLANET

THE EARTH:  
A CHANGING PLANET

- 1** Scientists believe the Earth is 4.6 billion years old. However, the **mountains**, valleys, **hills**, **rivers**, **deserts** and **forests** we see today are much younger than that. For example, Mount Everest is about 60 million years old and the Amazon rainforest is only 10 million years old. The youngest **sea** in the world is the Baltic Sea, at about 15,000 years old.
- 2** The Earth is always changing because of **volcanoes**, earthquakes and, of course, wind and rain. Some of these changes are very slow and others are quick. Water and ice can make very big changes to the planet. For example, glaciers (rivers of ice) can cut through mountains and make **lakes** and deep **valleys**. Eighty or more volcanoes are under the oceans and sometimes they become new islands. This is happening in the South Pacific, near Tonga.
- 3** It's normal for our planet to change, but at the moment, scientists think it's changing faster than usual. They don't understand everything that's happening, but they know that some **deserts** (places where it doesn't rain much) are growing, and many forests are getting smaller. The weather is getting wetter in some places and drier in others, and there are more big storms.
- 4** However, these changes are not bad for everyone. Because the Arctic is getting warmer, some people in Greenland now own businesses and sell vegetables they grow on their land. That wasn't possible so far north 50 years ago. Farmers in Greenland like the warm weather and hope it will continue.

## READING

1 Look at the picture below. In pairs, write down three things you know about pandas. Read the article once to check your ideas.

2 Are these sentences right (✓) or wrong (✗)?

- 1 The writer helped to look after giant pandas on her trip.
- 2 It's possible to find wild pandas in several countries.
- 3 Pandas only eat bamboo.
- 4 Baby pandas are very light when they are born.
- 5 Pandas start eating bamboo at the age of 18 months.
- 6 Scientists know exactly how many wild pandas there are.
- 7 It's possible to see a panda in Mexico.

## Learning about the GIANT PANDA

When I planned my trip to China, one of things I really wanted to do was to work at the Dujiangyan Panda Base in Chengdu. I spent seven days there, looking after the pandas, giving them food and cleaning their enclosures.

While I was there, I learned a lot about pandas. Wild pandas live in bamboo forests, high in the mountains of central China. In the past, they also lived in other parts of China and in Myanmar and Vietnam, but they don't any more. They spend about 12 hours a day eating bamboo, but they sometimes eat other plants or small animals. At Dujiangyan, we also gave them fruit, like apples, and special panda cakes made of rice, eggs and flour and other things.

Adult giant pandas weigh between 75 and 135 kilograms. Females usually only have one baby panda, or cub, at a time. The cubs only weigh about 85 grams when they are born! The little cub drinks milk for about four months and then begins to eat bamboo. Young pandas stay with their mothers for around 18 months.

Scientists think there are now between 1,500 and 2,000 pandas in the wild. This is a low number, but it's double what it was in the 1970s. The reason the number is going up is because of all the work scientists are doing at places like the Dujiangyan Panda Base in Chengdu. There are also about 325 pandas in zoos in a number of different countries, including the United States, Mexico, Japan and Germany.

### FACT FILE National Parks

Most countries have beautiful natural places. These places can be mountains, valleys, deserts, beaches, etc. You can see different animals and plants there. People look after them so everyone can enjoy them.

## Yellowstone National Park

1 Yellowstone is one of the oldest national parks in the world. It is in the USA in the states of Wyoming, Montana and Idaho. It is also a biosphere reserve – a special national park with interesting and unusual plants, animals and landscapes. In Yellowstone, men and women called *park rangers* look after the animals and plants.

2 Yellowstone is on the site of a very big, ancient supervolcano. The volcano is 640,000 years old and its landscape is amazing. There are large forests and some trees are over 200 years old. The Yellowstone River gives the park its name, but there are many other rivers. The Yellowstone River is in a deep valley called the Grand Canyon of Yellowstone.

3 Over 3 million people visit the park every year and they come to see the hundreds of geysers. These are hot-water fountains that come up out of the ground. Visitors also enjoy the beautiful lakes, where they can swim, fish or go canoeing.

4 There are 67 types of animals in the park, not including birds or water creatures. There are sheep, bison and bears. You don't often see bears because they stay in the forests and mountains, but bison often walk down the roads in the park!

5 Yellowstone is usually cold and dry, but there are sometimes forest fires, so you have to be careful when you have a picnic there. In winter, it is very cold. In summer, it is warm during the day, but at night it can be below 0°C. People need warm clothes when they are camping in the park.

#### 4 Are these sentences right (✓) or wrong (✗)?

- 1 Yellowstone is part of one state in the USA.
- 2 Park rangers protect the animals and plants in Yellowstone.
- 3 Yellowstone has a famous glacier.
- 4 The park contains very old plants.
- 5 The geysers in the park are popular with tourists.
- 6 You can't go in the water in the park.
- 7 People regularly see bison in the park.
- 8 The temperature can be very different on summer days and nights.

#### 5 Find words in the text that match the definitions.

- 1 different from others (paragraph 1)
- 2 keep safe (paragraph 1)
- 3 very old (paragraph 2)
- 4 fantastic (paragraph 2)
- 5 travel in a small type of boat (paragraph 3)

# 3 ON HOLIDAY

## FIRST HOLIDAYS WITH FRIENDS

**M**ost of us can't wait to go on holiday without our parents. We can choose where to go, what to do and who to go with. But are first holidays with friends always great? Read about Sophie, Fred and Chris. Where did they go? Did they have a good time?

Last summer, after we finished our exams, I invited my friend Paula to go on holiday to Greece with me. We got a flight to Athens and then we went by ship to the island of Milos. We were really tired when we got there, but we both wanted a swim, so we went to the beach. You can guess! We lay down and closed our eyes and when we woke up TWO hours later, we were really hot and thirsty – and red! Never again! *Sophie, 16*

My first holiday was a weekend in London. Jim, Simon and I travelled by tram from my house to the bus station. When we arrived there, I put my hand in my pocket but my wallet wasn't there! Where was it? I think I lost it on the tram. Jim and Simon each lent me money for the coach. We stayed at Jim's aunt's house in London and we had a fantastic weekend. *Fred, 13*

My first holiday was with my friend Tom at a campsite in a forest near our town. We didn't want my parents to drive us there, so we went by bus and then on foot. It was a long walk to the forest and it was raining! I put the tent up quickly because I knew how to do it, but all our things were wet. Then the sun came out the next day. We dried everything and had a great time! *Chris, 12*

**3** Read the article quickly and find out where Sophie, Fred and Chris went on holiday. How did each of them get there?

**4** Read the article again and answer the questions.

- What does the article mean by 'first holidays'?
- What did Sophie and Paula do when they arrived on the island?
- What happened while they were sleeping?
- What did Fred lose?
- How did he pay for the coach?
- What was the weather like when Chris and Tom were putting up the tent?

### TEEN TRAVEL TIPS ► MOSCOW

21

#### MONIQUE

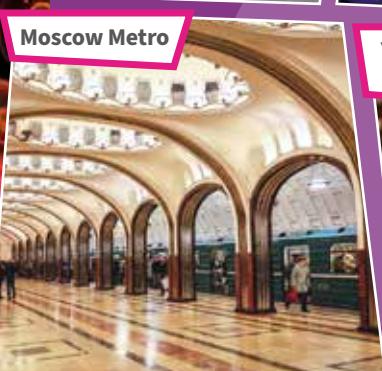

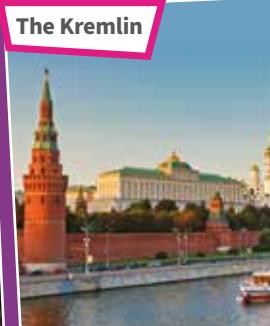

Moscow is great for sightseeing! I took photos everywhere I went. The only problem was that I don't speak Russian, so it was hard to get a taxi, and I hate walking. My advice is to take some Russian lessons before you go. I went to the aquarium on my first day. I enjoyed it, but there were a lot of tourists. I preferred the quieter streets with little shops selling postcards and presents. After I got gifts for my friends, I didn't have much money left!

#### CARLA

The underground, or metro, is a great way to travel around, but too crowded for me. My favourite place was Red Square. The buildings are amazing. But don't spend all your time taking photos – I didn't. I bought postcards from the little shops. You don't need Russian. Everyone speaks English. Oh, and I loved the street food and ate lots of it, but it wasn't cheap! The aquarium is fantastic. If you only go to one place, go there.

#### OLIVIA

My favourite place was Old Arbat, one of the oldest streets in Moscow. I wanted to get presents for my mum and dad, but all the shops had the same presents, so I didn't buy much. I mostly ate street food because it didn't cost much, and it was delicious. I went to the metro to look at the amazing stations, but I didn't travel on it. I went everywhere on foot. You see so much that way.

26

HOME

A

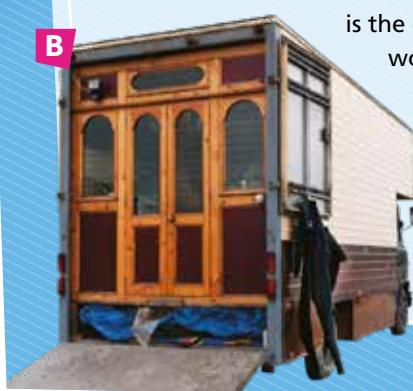

Paula and Gary lived in a modern house. It had a living room and a kitchen on the ground floor and on the first floor two bedrooms, one with a balcony and a bathroom. Next to the house they had a garage for their car, and they even had a small garden with a little gate painted green. It sounds perfect!

But Paula and Gary weren't happy. They both wanted to live somewhere more interesting, so they started to look for a new home. They were looking at homes on the internet one day, when Tim, Gary's dad, had an idea. Tim had his own lorry business and he was selling one of his lorries. Why didn't Paula and Gary buy it and make it into their new home? Gary and Paula thought this was a brilliant idea and bought it that same day.

It was a busy year: Gary was building everything for their new home, while Paula was working. He built cupboards around the cooker and the sink and he even built the shower. They bought a small sofa because there wasn't enough space for a big one.

Finally, six months ago, Gary finished the work on the lorry and they moved in. Gary and Paula love their new home! Paula thinks the best thing is the entrance made of wood and glass and Gary loves the high ceiling because he's tall.

There's no place like home!

- 4 Read the text again. Answer the questions.

- How many floors did Paula and Gary's old house have? What was on each floor?

- 1 Look at the photos of the unusual homes. What do you think they are like inside?
- 2 Read the article and match the photos A–D to paragraphs 1–4.

# STRANGE HOUSES

Most of us live in an apartment or in a house. Our homes often look similar to our neighbours' from the outside, but on the inside they can be very different. Most of us like our homes to be cosy and comfortable, but we have very different ideas about what that means. Some people like to have bright colours and lots of furniture, others prefer a cool, modern-looking home.

However, some houses look very unusual from the outside. Have a look at these four photos.

**1** Do you like flying? Then, this attractive house is for you. It's in Lebanon and is the shape of a plane. It's got small windows, so it's not very light inside, but in a warm country, small windows keep a house cool in summer.

**2** This very unusual house is in Mexico. It looks like part of the rock – and it is! The walls and the roof of the house are part of a very big rock. The family made the house more than 30 years ago. We can't see inside, but it looks quite dark, cool and peaceful.

**3** In 1968, a group of swimmers first had the idea to build this tiny house on a rock in the middle of the River Drina in Serbia. It's not only small but, as you can see, it's also not easy to get there. In winter it can be quite cold, so people use it mostly in summer.

**4** A Japanese company designed this football-shaped house in 2006. It's got 32 sides and four legs and can sit on top of water. It's very small but has big windows, so there is lots of light. What a great place to live!

### 3 Read the article again and answer the questions.

- 1 What does the house in Lebanon look like?
- 2 Why are small windows important in a warm country?
- 3 What is the Mexican house made of?
- 4 How old is the house?
- 5 What can you find in the middle of the River Drina?
- 6 When do most people use the house? Why?
- 7 What does the Japanese house look like?
- 8 Why is it very bright inside?

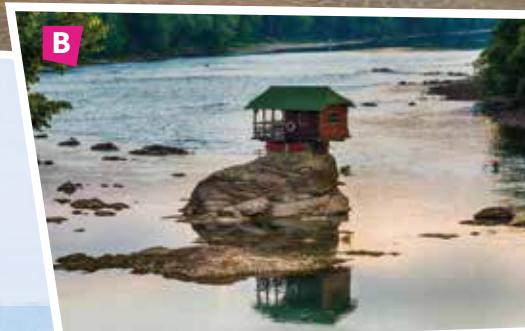

### TALKING POINTS

Which of these houses would you like to live in? Why?  
Which of these houses would you not like to live in? Why?  
Do you know about any other unusual homes? Tell your partner about them.

## WRITING

### PREPARE TO WRITE

A description of a home

**GET READY** Read Fernanda's description of her home. Which city does she live in? How many rooms does her family's apartment have?

Hi, I'm Fernanda. I live with my family in an apartment in São Paulo, Brazil. It's on the ninth floor of a big block near the city centre. It's got a kitchen, a living room, a bathroom and two bedrooms. I share one of the bedrooms with my sister, Luiza. She's 15. I'd like my own bedroom, but it's OK sharing with Luiza. We like the same things and we enjoy talking at night.

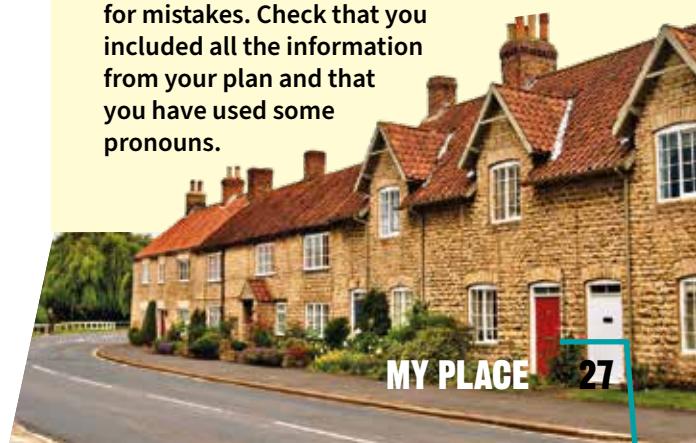

We use pronouns instead of nouns, so we don't have to repeat nouns. Which nouns do the underlined pronouns in Fernanda's description replace? Now replace the underlined nouns in this paragraph with pronouns.

David lives with his family in a small house in York. The house is quite new and the house has two bedrooms. David shares his bedroom with his baby sister, Mia. Mia is two and a half. David's mum, Helen, is a doctor and his dad, Francisco, is a nurse. Helen and Francisco both work at the local hospital.

**PLAN** Think about your home. Where is it? What kind of home is it? Who lives there? How many rooms has it got? Do you have your own room, or do you share a bedroom? Make notes.

**WRITE** Write a description of your home. Use pronouns for some of the nouns.

**IMPROVE** Read your description and look for mistakes. Check that you included all the information from your plan and that you have used some pronouns.

In international tests of maths, science and reading, students in Finland do well. This is good news! But when you look more carefully at the schools, it's not easy to explain. Finnish students don't start school until they are seven years old. The school day is short, about five hours, and there are only three or four classes a day. Students don't have much homework and there are no exams. So, why don't they do badly in tests? Perhaps something else can explain it.

There is another unusual feature of schools in Finland. For most of us, the school timetable is a list of subjects, for example ICT, history, foreign languages, geography, with one lesson following another. But some experts believe our brains work in a different way. They say our brains don't divide our learning into subjects. Our brains learn better when they get new information in context. This is why some Finnish schools don't teach subjects separately. Instead, they give students a project, such as 'the weather', and then bring school subjects into the project.

So how do some experts believe we learn most easily? Here's an example of a project with a class of 12-year-olds. Students watch a video re-enactment of the end of the city of Pompeii. Then on their laptops they compare ancient Italy under the Romans with modern Finland. Groups look at different parts of the topic and then share their ideas. They also use 3D printers to make a tiny Roman building. Later, they use the pieces of the building for a game. This project includes history, ICT, and design and technology.

31 July 2018

A few years ago, I wasn't very happy at school and I wasn't doing well in tests. So, when I was eight, Mum and Dad decided to teach me at home.

Homeschooling – great, I thought! I could stay in bed all day! Well, it wasn't quite like that! My parents found out what I needed to learn. Sometimes I had lessons, but most of the time I studied things I liked and found interesting. That's how homeschooling works best.

My favourite hobby was playing computer games, so, with Dad's help, I began to write my own computer programs. But I liked making models too, and for that I needed ... maths! At school, maths was boring, but now it was useful for making my models. I made a model boat and I needed to understand science and maths to do that – oh, and design and technology too!

So were there any bad things about homeschooling? Not really. I missed my friends, but I saw them at weekends and we talked about school! They told me about their week at school, and I told them about mine. Mine always seemed more fun to me. Some weeks I studied more than they did. Other weeks I didn't study much at all. And I never had homework!

I'm 15 now, and I'm back at school because I need to take exams. I don't mind. It's nice to study with my friends again.

- 2 Read Clarissa's blog again. For each question, choose the correct answer.

**A** Her parents didn't like her school.  
**B** She was too old for her school.  
**C** She was having problems at school.
- 2 What does Clarissa say about homeschooling in the second paragraph?  
**A** She only learned what her parents told her to.  
**B** She chose what she wanted to learn.  
**C** She studied in bed a lot of the time.
- 3 Clarissa preferred doing maths at home because  
**A** her dad was able to explain it to her.  
**B** it helped her do things she enjoyed.  
**C** she had more time to spend on it.
- 4 What was the difference between Clarissa's and her friends' school experiences?  
**A** Clarissa didn't have to do any homework.  
**B** Clarissa always had more work to do than they did.  
**C** Her friends enjoyed themselves more.
- 5 What does Clarissa say about homeschooling in her blog?  
**A** It's important to have daily lessons.  
**B** It's hard to find time to see friends.  
**C** Learning doesn't always have to come from books.

## Special Memories

### ANJA, AGE 13

My special memory is from when I was three years old. We were staying with my grandparents at their house in the country. They lived in an old wooden house. I remember the house was always cold and it was near a forest. When it was time for bed, Grandma took me upstairs to read me a story. On my bed there was a lovely wool blanket. It was really colourful. I remember touching it and it was so, so soft. 'It's yours. I made it for you,' my grandma said. I still have the blanket on my bed at home. It looks really small there, but I remember when I was younger it seemed so big!

### 3 Read the article again and answer the questions.

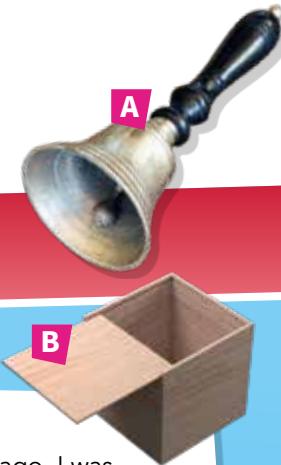

- 1 What was Anja's grandparents' house like?
- 2 When did Anja first see the blanket?
- 3 What was it like?
- 4 Why do you think Anja remembers it as big when in fact it's quite small?
- 5 Who was Pete's present from?
- 6 What did it feel like?
- 7 Why did he feel sad when he first felt the present?
- 8 What happened when he took it out of the box and why?

### TALKING POINTS

### PETE, AGE 14

My special memory isn't from very long ago. I was opening presents on my 13th birthday. My older brother gave me a large box. It was very hard. What could it be? I opened it and felt inside. I'm blind, so I needed to touch everything because I can't see. It was smooth and round. I remember thinking 'It's a leather football' and feeling upset. I can't play football because I can't see the ball. I picked it up. It felt quite heavy, and it made a noise. My brother told me it was a special football for blind people. There are little metal balls inside that make a noise when someone kicks or throws it. Perfect! Now I play football all the time.

## SECONDARY SCHOOL IN THE UK

### 1 Discuss the questions with your partner.

- 1 Do you like going to school?
- 2 Why? / Why not?
- 3 At what age do people start secondary school in your country?

### 2 Work with a partner. What do you know about secondary schools in the UK? Discuss your ideas. Read the web page. Were any of your ideas mentioned?

## The secondary school system in the UK

From the age of 11 to 16, children go to secondary school. Most take children of all abilities and are called comprehensive schools. But there are also grammar schools, where children take an exam to enter, especially in Northern Ireland. In Scotland, secondary schools are called high schools or academies. When they are 14, all children choose the subjects they want to study at GCSE (or National 5 exams in Scotland). These are national exams you take at 16. Everyone has to do English and maths. Students also choose four or more additional subjects from a list. This includes subjects like languages and sciences but also photography and drama.

### The school year

The school year goes from September to July in England and Wales, August to June in Scotland and September to June in Northern Ireland. There are three terms and short holidays in the middle of each term. The Christmas and Easter holidays are usually two weeks, and the summer holiday is six weeks, or two months in Northern Ireland.

### The school day

The school day at secondary schools goes from about 8.45 am to 3.30 pm. There's a break in the morning and another for lunch. Most British school students have to wear a uniform. Each school has its own colours for the uniforms.

### Sixth form / S5 and S6

When students are 17 and 18, they take more exams. In Scotland, these exams are called Highers in the first year and Advanced Highers in the second year. In the rest of the UK, students go into the sixth form to study four subjects at AS level in their first year and three of these at A level in the second year. You need to pass these high-level exams to go to university.

### 3 Read the web page again and complete the table.

The Brecon Beacons are mountains and the weather there can be sunny one minute and raining or foggy and cold the next. Please make sure that your son or daughter brings the right clothes. See the kit list below.

It's important students don't bring too many clothes because each group is going to carry everything they need for camping and cooking.

There are lots of different walks in the mountains. We know that some students don't walk very much, so our walk over the two days is only 25 km long.

- Students spend Saturday and Sunday hiking.
- Students camp for one night, on Saturday.
- Students sleep in tents in groups of three or four.

We are travelling to the Brecon Beacons by bus. The bus leaves from the school on Saturday at 6 am and returns on Sunday at 8 pm.

Harold Davisson had a shop in Seward, Nebraska in the USA. He thought it was important for his children and grandchildren to touch and see real things, not just to read about them in books. Then he heard there was another time capsule bigger than his, so he put a second time capsule on top of the first one. His grandchildren will open them both on 4th July 2025. They know some of the things they will find, but they might find things Harold didn't tell them about!

# LIFE SKILLS COMMUNICATION

## HAVING A GOOD CONVERSATION

### LIFE SKILLS

To have good conversation, you should remember that:

- when only one person talks and the other listens, it is not a conversation!
- some people are quiet, some people like talking more.
- a good conversation includes everyone.

## Good conversations

Imagine you have to spend an hour with a student you don't know from another class. Maybe you're going to take a test, or you're waiting to see the head teacher. For some people, it's a difficult situation because you don't know the person very well. For other people, it's easy to start a conversation and say, for example, *How are you?* or *Are you nervous?*

Talking to an older person can be even more difficult. For example, your parents' friends or aunts, uncles or grandparents. Sometimes they ask all the questions and you only answer! The best way to manage this is to think of questions to ask the other person. People like to talk about their experiences and to give an opinion about things.

Group conversations are also difficult to manage sometimes, but there are some easy ways to make sure everyone speaks, including yourself! If you are a person who can talk easily, then think about the others in the group. If you notice one person is not speaking, then ask them a question. A simple *And you?* or *Why?* Or show interest – *Really?*

When you are in a group and everyone is talking at the same time, it is sometimes hard to interrupt, especially if you think this is not a polite thing to do. When you want to give your own opinion politely, you can use *Excuse me, can I say something?* Then other people know you have something to say.

We can all learn to have good conversations.

64

- 1 Are these statements true (T) or false (F) for you? In pairs, compare your ideas.

I talk more than I listen.

I'm quiet, so I don't want to talk.

I prefer to talk in pairs than in groups.

I like to hear different opinions.

- 2 Listen to the conversations and answer the questions.

**Conversation 1** Does the conversation include everyone?

    - C working for his favourite football team
  - 5 What is the best title for this article?
    - A Are eSports a good thing?
    - B The history of eSports
    - C What are eSports?

Playing a good video game is an exciting experience. Games are full of light, sound, action and surprises, and this makes them fun to watch as well as to play. Because of this, more and more people are taking part in eSports. This is the short name for electronic sports – playing video games against other people in competitions. There are huge tournaments all over the world, where big crowds watch matches on giant screens, and millions more watch online.

Just like many normal sports, eSports players usually play in teams, and have fans who follow them through every competition. Prizes for important eSports competitions are very large, and eSports champions can earn more than £1 million a year. That makes it sound like a great job, but in fact it's not easy to be a winner. Players have to practise so they don't get much rest. The games they play change often and there are always new things to learn.

eSports stars are not well known in the way that some football stars are. However, some top eSports players now work for real football teams. For example, Koen Weijland, a professional player of the football video game FIFA, is part of Ajax, a famous Dutch football team. As a little boy he wanted to be a footballer and was a big fan of Ajax, so for him this is like a dream come true. And who knows, maybe one day, eSports stars like him will be as famous as today's top footballers.

- 3 In small groups, ask and answer the questions.

- 1 Do you play video games? If yes, which ones?

# A SPORT FOR ALL ?

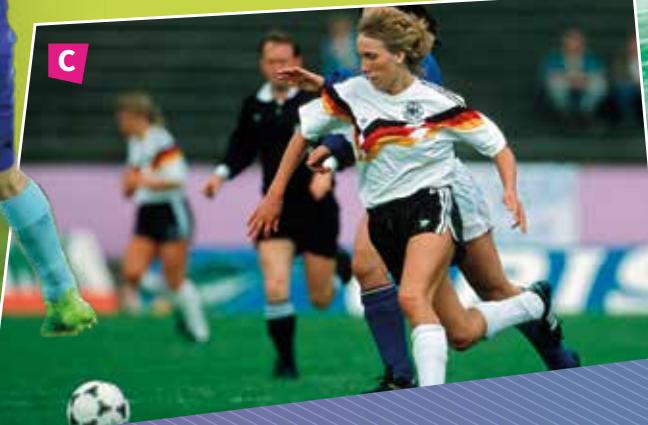

82

**1** In 1920, there was a match between two women's football teams at Everton's football **ground** in Liverpool. Around 53,000 people went to watch it! Just a few years earlier, during the First World War, many men were fighting abroad. This meant there were no football players and no important **games**. People loved the sport and wanted to watch it, so women started to play. Some of the best players, such as Lily Parr, are still famous today. She became famous when she was only 14 and scored 43 goals in one season.

**2** A year later, in 1921, the Football Association (FA) decided to stop women's football because they thought it was not a sport that women should play for payment. Fifty years later, in 1971, women could finally play football as a **profession** and not just as a hobby. However, it wasn't until 1993 that the English FA recognised international women's football. After that, women could play in competitions with other countries.

**3** Nowadays, nearly three million girls and women play football in the UK, and there are 100,000 registered players who can play official **tournaments**. There are only about 200 professional players, and many have to do other work to earn enough money, but you can often see women's football on television. They sometimes play in really famous places, such as Wembley **Stadium** in London.

**4** In schools, girls and boys play football in the **playground** – there are teams with both boy and girl players. Recently, all-girl teams are playing against all-boy teams. So football is really a sport for everyone!

**3** Read the text again and answer the questions.

- 1 How many people went to watch the women's football match in Liverpool in 1920?
- 2 Why did many women start playing football during the First World War?
- 3 Why did women stop playing football after 1921?
- 4 When did the Football Association in England allow women to play in international competitions?
- 5 Do professional women players receive a lot of money nowadays?
- 6 Do boys and girls always play in separate football teams?

**4** Match the highlighted words in the text to the definitions.

- 1 three words for a place or places where people can play football
- 2 two words for football competitions
- 3 one word that means 'job'

### TALKING POINTS

## WHAT MAKES A MOVIE A HIT?

91

We all know a good film when we see it. It has a great story, excellent photography and wonderful acting. But what makes a good movie into a big hit? This is a question that filmmakers are always asking themselves! Of course, there is no perfect answer. However, movie companies have a few tricks which help make their films become as successful as possible.

1

Some stars have fans who will go and see any movie they are in. Unfortunately, not all movies that have big stars in them are successful, and using famous actors can be expensive!

2

There are lots of movies which come from books, comics, computer games or TV shows. Just think of Harry Potter, Wonder Woman, X-Men, Star Wars, etc. People already love these, so they can't wait to see the film.

3

People often check to see what newspapers or websites are saying about a film before they go and see it. Also, people who love a movie will tell their friends how good it is.

4

This is really important. As well as posters and trailers, most big films will now have a website that gives extra information about the film. Also, when a new film comes out, the stars of the movie usually travel around the world and give interviews to get people interested in the film.

5

Awards like the Oscars and the Golden Globes let people know which films are good to watch. A movie that gets an award often becomes much more popular than before.

# LIFE SKILLS

## CREATIVITY AND INNOVATION

### BRAINSTORMING

- 1 When do you need ideas from other people?  
Tick the sentences that are true for you.

to do projects at school  
to decide what to wear in the morning  
to make a room more attractive for a party  
to do homework  
to buy a present for a friend

In pairs, compare your answers.

- 2 Think of an example where you worked with other people to get ideas and tell the class.

Last term, we had a science project. We had to think of an experiment to do in groups.

- 3 Read the text and match groups A–D to the brainstorm techniques 1–4.

### How and what can

#### 1 Mind map

### we brainstorm?

#### 2 Lists

##### School trip to the mountains

Food	Drink	Clothes	Equipment
sandwiches biscuits	water juice	warm sweater boots	backpack whistle

#### 3 Cards

##### Name for our school pet

#### 4 Image circles

#### 4 Read the texts again and answer the questions.

##### GROUP A

- 1 Did all the students write down their ideas?
- 2 How did they organise their ideas?

##### GROUP B

- 3 What did the students write in the circles?
- 4 Did all the students write in the circles?

##### GROUP C

- 5 What did the students write in the middle circle?
- 6 Did they learn new information?

##### GROUP D

- 7 What did the students use to show their ideas?
- 8 What did they do with ideas that were the same?

#### 5 In pairs, discuss which brainstorming idea you think is best and explain why.

#### 6 Listen to four students planning a school party. Which brainstorming method do they use?

### Group A

We chose one person in our group to be the secretary, who wrote down the ideas. We put the ideas in lists in different columns. When we had lots of ideas, we numbered them in order of importance. Then, we crossed out the ideas we didn't like so much. In the end, we planned a fantastic event!

95

### Group B

In my group, we drew lots and lots of circles on the page. Then, we took turns to put an idea in each bubble or circle. We didn't write sentences. Instead, we wrote one or two words which expressed our idea, although some people drew a picture. Some of the ideas were crazy, but it was fun to see things that other people thought were important.

### Group C

We decided to draw a circle in the middle of the page and write the topic in the centre. Then, we drew lines which connected the middle circle to the other circles. Each of the circles contained ideas about a different part of the topic. It was good because everyone knew different pieces of information, like names or places, so when we finished, we had a lot to write about.

### Group D

Each person in the class wrote one idea on a card. Then, we put all the cards on the board at the back of the room. We put the cards that had the same ideas together in groups on the board and then we voted to decide on the best one.

#### 7 Listen again and answer the questions.

- 1 What are the topics they mention first?
- 2 List two of the themes the students suggest.
- 3 Which nationalities do they mention?
- 4 How many topics do they have at the end?
- 5 What is the name of the final topic they mention?

#### 8 Choose the correct options.

### USEFUL LANGUAGE

- 1 *Do we / Shall we* all write down a list of suggestions *first / firstly*?
- 2 *Why don't we / We think* to make a mind map?
- 3 *Then / Last*, what about the other circles?
- 4 *What about / Let's start* with the theme.
- 5 *Shall we / How about* different nationalities?
- 6 *Next / After*, we'll have to choose decorations.

#### 9 Listen again and check.

# POCKET MONEY

Did you know?

108

1 Most teenagers receive pocket money every week. But not everyone gets the same amount of money. Have you asked your friends how much they get? You might be surprised. And if you're a girl you'll be amazed to learn that boys often get more than girls of the same age!

2 Teenagers up to the age of about 15 in the UK have about £5 a week in pocket money. But in Italy, France and Spain, the same age group gets about €9, which is a bit more. In the US, pocket money is called 'an allowance'. Most teenagers get an allowance of about \$30, which is more than £20 or €25.

3 Quite a lot of teenagers do. They have to do things in the house, like washing-up and cleaning and then they get their pocket money. If they don't do the jobs, they don't get the money. Some teenagers have part-time jobs too, which means they have more than their pocket money to spend each week.

4 You might be surprised at the answer. Teenagers in the UK spend more of their money on food than on clothes. Is that true for you too? Teens do more shopping online than before and online clothes shopping is cheaper. So perhaps this is one reason they don't spend so much on clothes.

5 Some parents do! They only let them buy some things. Other parents want their teens to save all their pocket money and spend it on something big in the future, or not spend it at all.

There's also a night market on Wednesdays from 5 to 10 pm. There are more than 600 shops and stalls in the market. The fresh-food areas sell fruit and vegetables, cakes, fish and meat (including kangaroo and crocodile steaks!).

You can buy many different things there from more than 100 stalls, especially fresh food and delicious homemade products. A fun thing to do is cookery classes in the Market Kitchen. Here, you can learn to make different dishes and take them home to eat! The farmers' market opens on Saturdays at 5 am, and local farmers come to sell meat, fruit, vegetables, eggs, etc.

**B** Hell's Kitchen market is an outdoor street market in New York, USA. It only opens at weekends from 9 am to 5 pm, with nearly a hundred stalls on the streets – but if the weather is bad, there aren't so many people selling or buying. It started in 1976, and you can buy antiques, such as old furniture or clothes and jewellery. ## READING

- 1 Look at the photos and the title of the blog. What do you think geocaching is?  
Read the blog once to check your ideas.

# MY HOBBY – geocaching

Blog post written by Lucy Barton, aged 14

I started geocaching because of my uncle – he's done it for years. Geocaching is a treasure hunt that you do with an app. The 'treasure' is a box called a cache that someone else has hidden. There are 2 million of these, all over the world! It's a really fun hobby and I'm so glad my uncle told me about it. We have a great time doing it together, but if he's busy I go with friends, or do it by myself.

The app takes you quite close to the cache, and then it gives you a puzzle to help you find exactly the right place. A lot of older people are geocachers, so some of the puzzles are difficult for me as they are about movies and TV shows that I haven't seen. But I don't really mind – I can always look them up on the internet!

It's a fantastic feeling when you find a cache! You have to open the box and put your name in the little book inside. Often, there are things in the cache as well. You can take something out to keep if you want to, but if you do that, you should always put something new inside for the next person.

Next year, I'm going to start using the paid version of the app. Then, I can make and hide my own caches! I'm also going to tell all my friends and family about geocaching. It's such a great way for everyone, from adults to little kids, to spend time together, enjoy themselves and get to know their local area.

2 Read the text again. For each question, choose the correct answer.

- 1 What do we learn about Lucy from the first paragraph?  
**A** She has done her hobby for longer than her uncle.  
**B** She didn't enjoy her hobby much at the beginning.  
**C** She doesn't always do her hobby with other people.
- 2 What does Lucy say about the puzzles?  
**A** They can be hard for her because she's young.  
**B** It's a shame so many of them are about films.  
**C** People shouldn't look online to find the answers.
- 3 What must you do when you find a box?  
**A** check how many people have already found it  
**B** leave something of yours for the next person  
**C** write down who you are in the little book
- 4 What does Lucy plan to do in the future?  
**A** spend more time geocaching in the city  
**B** get other people interested in geocaching  
**C** spend less money on going geocaching
- 5 What do we find out about geocaching from this article?  
**A** It's becoming more popular every year.  
**B** It takes a long time to learn how to do it.  
**C** It's a good hobby for people of all ages.

- 1 How many languages are there in the world?
  - 2 What European language family does Polish belong to?
  - 3 Which Asian language has the most speakers?
  - 4 What are some common second languages in Africa?

- ## **2** Read the texts again and answer the questions.

  - 2 Which continent has the most languages?
  - 3 Which country has the largest number of languages?
  - 4 What is special about the Basque language?
  - 5 What has happened to some of the languages of Australia and Oceania?

# LANGUAGES of the WORLD

**T**here are around 7,000 different languages in the world today. Languages that are similar to each other are in groups or ‘families’. Some languages have a lot of speakers and others have very few. Many of the smaller languages have no writing, so when the last speaker dies, the language dies too.

# Europe

Europe has 284 different languages. One language family here is Romance languages, which includes Spanish, Portuguese and Italian. Another is Slavic languages, such as Russian, Polish and Czech.

English belongs to the Germanic group, and is the third largest language in the world: 335 million people speak it as a first language and 505 million speak it as a second language. The Basque language from Spain and France is very unusual. It doesn't belong to any language family!

## Asia

Asia has 2,303 languages. Chinese has a billion speakers – more than any other language in the world. Hindi is the world's fourth largest language, and Arabic comes fifth. Some parts of Asia have a very large number of languages.

# Australia and Oceania

This area has 1,311 languages in total. The main language of Australia and New Zealand is English, but there are a lot of smaller languages too. Papua New Guinea has only around 8 million people, but it has 832 languages – more than any other country! Unfortunately, some Aboriginal languages are very small now and have only one or two speakers.

# Americas

This area has 1,060 languages. English and Spanish have the most speakers on these continents. Spanish, with 406 million speakers, is the world's second-largest language. Portuguese is spoken in Brazil. While in Canada people speak mainly English and French. There are also many other native languages, for example Mam, a Mayan language, which people speak in parts of Mexico and Guatemala.

## Africa

Human language probably began on this continent. There are 2,146 languages here. Many people in Africa can speak more than one language because, as well as their own language, they also speak English, French or Portuguese.

# LIFE SKILLS LEARNING TO LEARN

## EFFECTIVE LEARNING

### LIFE SKILLS

To learn something well, you need to

- use a notebook
- practise
- revise
- try

It's normal to make mistakes when we are doing something new. But we can learn from our mistakes as well.

**1** Think about how you learn and answer the questions.

- 1 How did you learn that  $2 \times 2 = 4$ ,  $2 \times 3 = 6$ ,  $2 \times 4 = 8$ , etc.?
- 2 How did you learn to ride a bicycle?
- 3 How do you learn to remember names and dates in history?

**2** Match questions 1–3 in Exercise 1 to answers a–c. Then match them to one of the ideas in the *Life skills* box.

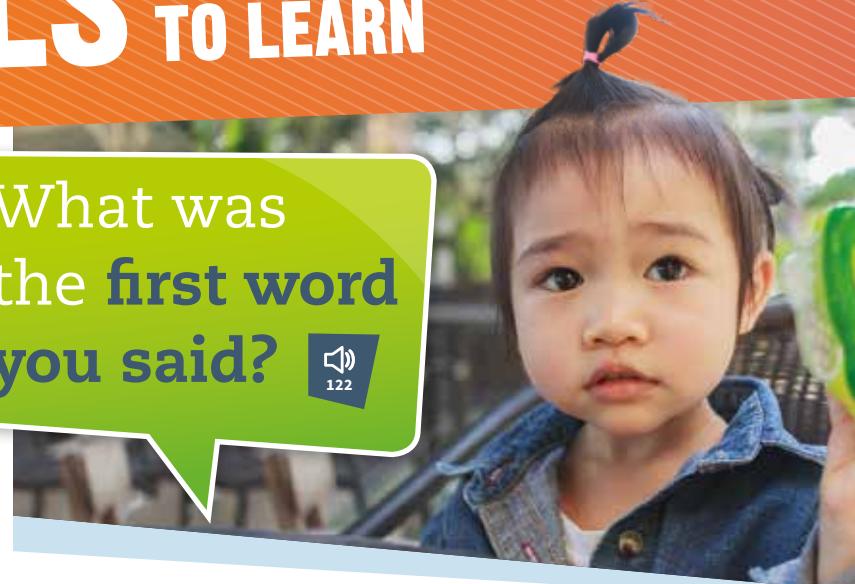

- a At first, I couldn't do it, but my brother helped me to go along our street every day until one day I could do it by myself.
- b We said it in class and repeated it lots and lots of times.
- c I work with a friend and we ask each other questions about the things we learn in class.

**3** Did you learn to do these things in the same way? In pairs, discuss how you learn.

**4** Read the text. Circle the language skills it mentions.

- a reading
- b listening
- c speaking
- d writing

What was the **first word** you said? 

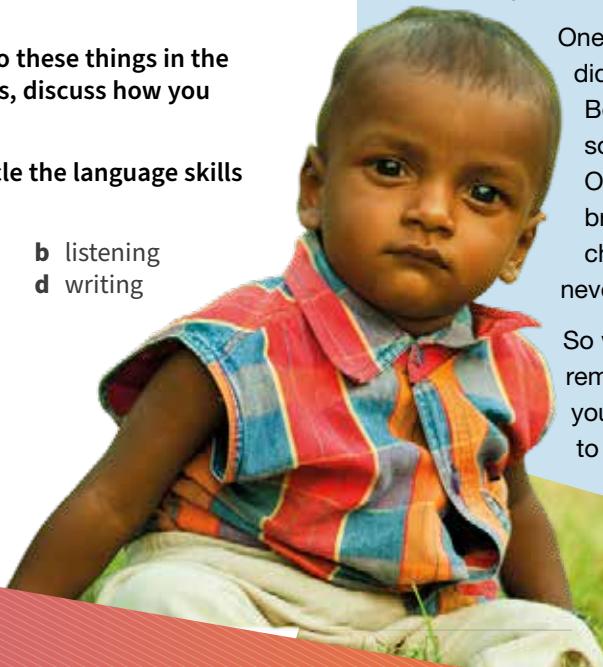

**H**ave you ever thought about how babies learn to speak? For the first months of their lives, they cry and make noises, but, in general, children start **forming** words when they are about 12 months old. Which are the first words they say? Sometimes, they are the words they hear most often, sometimes the words for things they like. They usually start with words like *mama*, *papa* or *dada*. Some scientists say that sounds like *ma*, *da*, *pa* and *ba* are the easiest sounds to make, so when parents are very happy because their child is saying *mama*, in fact the baby is just **experimenting** with making noises!

All children begin learning their language first by listening and then speaking. They start with words for objects, like *car* or *dog*, then verbs for actions, like *drink* or *eat*, slowly **adding** other kinds of words to make sentences. They can understand more difficult words and sentences, but they can't say them. Some children speak more than others (just like adults!) and some children speak earlier than others, but by **practising**, they all learn in the end.

One mother tells the story of her son who didn't speak until he was four years old. Before then, he pointed when he wanted something or just made strange noises. One day, he came into the kitchen for breakfast and said, 'Can I have some chocolate cereal, please?' And then, he never stopped **chatting**.

So when you start to learn another language, remember that it took years for you to learn yours! If you keep listening and **trying hard** to speak, you improve, just like in your own language.

## Did you know?

- 1 Babies can learn any language. No language is more difficult than another.
- 2 Most children say their first words between 11 and 14 months old.
- 3 A boy from the USA, Michael Kearney, spoke his first words when he was four months old and finished secondary school when he was six years old.

**5** Read the text on page 94 again. Are the sentences right (✓) or wrong (✗)?

- 1 Babies make their first sounds when they are about a year old.
- 2 Their first words are often words they have heard a lot.
- 3 Some scientists think that babies aren't thinking about their mother when they say *mama*.
- 4 Babies use verbs before nouns when they start speaking.
- 5 The boy who didn't speak until he was four didn't make any sounds at all.
- 6 You can learn a new language better if you listen more and talk less.

**6** Match the highlighted words in the text to the definitions.

- 1 making an effort to do something
- 2 doing new things to find out something
- 3 repeating something again and again
- 4 talking
- 5 making the shape of something
- 6 increasing the number of something

**7** Listen to Mario talking to his class about learning English. Why did he improve?

Sharing resources

	<b>Funland</b> Description: This is a vocabulary game. You have to read definitions or words and match them to the pictures. Opinion: It's a fun game, but you have to be good at fishing!

- Work in small groups.
- Individually, think of something you read in English that was interesting – a web page, a blog, a game, an article, a book, etc. or something you enjoyed watching in English – a video, a film, a series, a cartoon, an activity from your coursebook, etc.
- In your group, prepare a short information page about each idea.
- Include: the title, what it is, where you can find it (the link to a web page or a video etc.), your opinion, photos, screenshots or drawings.
- Present your idea to the class. Try to use some of the expressions from Exercise 9 and be ready to answer any questions about it.
- Create a class file for everyone and add new pages when you find other interesting things to read or watch in English.

# ACCIDENT!

Posted by Ben09 on Monday 13th May

This is me with my new bike – before the accident! Have you ever fallen off your bike and hurt yourself? Well, here's my story.

It was my birthday (thanks for all the texts) and this amazing bike was my present. I went for a ride by myself along the bike path. The path isn't usually busy. But that day there were two cyclists coming towards me. I slowed down as quickly as possible but I forgot it was a new bike with good brakes! I stopped really suddenly and fell off. I hit my ankle and it really hurt. The two cyclists rode past and didn't stop. I sat on the ground and watched their backs as they rode away. They were enjoying themselves too much to think about me! I got up by myself and picked up my bike, which luckily was OK. My heart was beating fast as I cycled slowly home and people were looking at me! When I got there I found out why – there was blood all over my T-shirt from a cut on my ear.

E

F

G

2

Everyone tells you it's not healthy to sit at the computer all day. For one thing, it's very lonely and can make you feel lazy. But doing too much sport can also be bad for you. Your body is still young, so you shouldn't do too much exercise. You can easily hurt something. About an hour of sport a day is right for a teenager. You should also think about when you do sport. For example, you can get a stomach ache if you play tennis just after you've eaten.

3

Everyone feels unhappy from time to time, so you're not alone. Don't be surprised. It's normal for your feelings to change at your age. Is there something you're worried about? Find a friendly person to talk to, like your mum or dad or a teacher. You might get a bit embarrassed, but you'll be glad that you did. If you talk about your problems, they aren't so bad.

4

The answer to this is yes! I'm sure you know that a plate of fruit is better for you than a plate of chips! But what your growing body, your heart and your brain need is variety. If you are careful and eat a bit of everything, then you are healthier. Don't forget fresh fruit, vegetables and eggs! Eating a variety of healthy food gives you energy and can help you feel confident about studying and doing exams.

## LISTENING

- 3 My parents don't understand me.
- 4 I think it's broken.

2 Work in pairs. Take turns to be the teenager asking a question about one of the problems in Exercise 1 and the person giving advice. Use the ideas in the *Teen Health* website and the phrases in the box to help you.

How about ... Why don't you ...  
Why not ... You should ...

I failed my exam. What can I do?

You should ask the teacher what you need to work on. You're always listening to music. Maybe you should spend more time studying.

### A NATALIE

My mum bought this for me for my birthday and I knew from the picture on the front and the title that I was going to love it. I read it in just two days and I was really sad when I got to the end. The story is about a girl who has to help her family by getting back some stolen paintings – I found it really exciting! I'm now a huge fan of the author, Ally Carter – I have all her other books on my shelf ready for the summer.

### B HEIDI

In my opinion, this is one of the funniest books ever written for teenagers. It's about a 15-year-old boy who wants to start a rock band, but the adults in his life all try to stop him. Nothing goes right for him until the very end of the story. The writer is also an artist and the clever drawings on each page help the story along. Unfortunately, the cover makes it look like it's for little kids, which is a shame as it might stop some teenagers from picking it up.

### C DAVINA

I got this book for a great price in my local store. It's a funny story about a terrible girl who has to learn to be a better person. It's the first time I've tried this kind of book, but I really enjoyed it. Of course, it's not perfect – I wasn't happy with what happens in the last few pages. But it was a lot of fun, and I think I'll probably read more like it in the future.

### R.J. Palacio

**R. J. PALACIO** was born in New York and still lives there with her husband, two sons and two dogs. She studied at the High School of Art and Design and worked for many years as a graphic designer, creating book covers. She wrote her first book, *Wonder*, in 2012. R. J. is also the author of several short stories and has recently published a picture book for younger readers called *We're All Wonders*, combining her writing and artistic talents. She wanted to be a writer for many years

but never found the time until one day she decided to write *Wonder*. She says, 'This story was something that I wanted to say and I needed to say.' The book is about a boy who looks very different to other teenagers and his experiences when he first goes to school. The film of the book came out in 2017.

- b  Jack is sorry and he and August become friends again.
- c  When he arrives, the principal of the school asks three students to look after him,

- 1 Why didn't August go to school before fifth grade?
- 2 Where did he study before?
- 3 Why doesn't his mother draw anything now?

## Why I didn't go to school

136

Next week, I start fifth grade. Since I've never been to a real school before, I am pretty much totally and completely petrified. People think I haven't gone to school because of the way I look, but it's not that. It's because of all the surgeries I've had. Twenty-seven since I was born. The bigger ones happened before I was even four years old, so I don't remember those. But I've had two or three surgeries every year since then (some big, some small), and because I'm little for my age, and I have some other medical mysteries that doctors never really figured out, I used to get sick a lot. That's why my parents decided it was better if I didn't go to school. I'm much stronger now, though. The last surgery I had was eight months ago, and I probably won't have to have any more

for another couple of years.

Mom homeschools me. She used to be a children's-book illustrator. She draws really great fairies and mermaids. Her boy stuff isn't so hot, though. She once tried to draw me a Darth Vader, but it ended up looking like some weird mushroom-shaped robot. I haven't seen her draw anything in a long time. I think she's too busy taking care of me and Via.

I can't say I always wanted to go to school because that wouldn't be exactly true. What I wanted was to go to school, but only if I could be like every other kid going to school. Have lots of friends and hang out after school and stuff like that.

# DIFFERENT INGREDIENTS

## Breakfast cereals

Breakfast cereals are popular in many countries. They are made from grains, such as corn, wheat and rice. They are usually eaten with milk, or with yogurt and fruit. In the beginning, cereals were health foods, but these days some children's cereals are 50% sugar, and doctors say we shouldn't eat them too often.

**There are lots of kinds of cereal. This is how cereals in different shapes, like stars and balls, are made.**

- First, the grain is taken to the factory, where it is cleaned and checked.
- Then it is **prepared** for cooking. It is made into flour and **mixed** with other ingredients. Water is **added** and the mixture is **boiled**.
- When it is soft, it is put into special machines which make it into shapes like stars, circles, or even letters of the alphabet.

- The shapes are **baked** in an oven to dry them. Then, they are 'puffed' in another machine to make them light and full of air.
- After that, they are **covered** with sugar or honey. Some are **filled** with chocolate. The cereal pieces are then **dried** in hot air.
- Finally, the cereal is packed into boxes, ready for the shops.

## LIFE CHANGES

Hi, my name's Joe and I'm 15. I want to tell you about something which changed my life. My mum always sang me songs at bedtime when I was a little boy. The songs weren't written by other people. They were all her own work. Anyway, Mum changed her job and it meant we had to move from London to New York. I was very excited but sad to leave my friends. When we were changing planes in Dublin my mum started talking to a man who worked for a record company. She told him about her songs, and he asked her to send him some of them. When we got to New York, Mum sent him some songs, and he loved them. A year later, her first album was released and it sold a million copies in a week! She recorded another and soon she was rich.

Our old apartment wasn't very comfortable and because mum had lots of money we moved to a really big apartment with a great view of Central Park. Then, our lives really changed. Suddenly, everything was done for us, our food was cooked by someone else, our apartment was cleaned, I was driven to school, Mum and I were flown everywhere in a private plane. I know it sounds amazing and it is, but actually I'd like to go back to my old life in London.

# LIFE SKILLS STUDY SKILLS

## TAKING EXAMS

### LIFE SKILLS

When you have an exam you should:

- organise your time
- prepare what you need
- keep calm and don't worry!

Taking exams can make you feel nervous or worried. If you prepare well and relax, you will do your best.

### ADVICE

- studying for exams

#### 1 Look at the statements. Are they true for you?

- 1 I have a good memory.
- 2 I find some exams difficult.
- 3 I don't worry about exams.
- 4 I can never finish exams in the time.
- 5 I like doing exams.

In pairs, compare your answers.

#### 2 Do you think these ideas are important when you have to study for exams?

- 1 how much you sleep
- 2 what you eat
- 3 preparing what you need for the exam
- 4 organising your time
- 5 talking to your teacher
- 6 doing physical exercise

Read the text and tick the ideas that are mentioned.

1 ..... : Don't spend too long on one topic, but do a little of each subject every day or week. Make a timetable for the afternoons or evenings, with study time, eating time and include some free moments.

2 ..... : It's difficult to remember too many things at the same time, so if you have a lot of information to learn, divide it into sections.

3 ..... : For example, draw a picture next to a foreign word you want to remember. Or, to remember the formula  $E=mc^2$ , you could write *The elephant made cakes twice*.

4 ..... : We often remember better if we can see a kind of picture of the most important points. This makes it easier to connect the information in our minds.

5 ..... : Healthy food gives you energy and helps you to concentrate.

6 ..... Stand up every hour and move around. Have a small snack or a short walk to clear your mind.

7 ..... : Don't stay up late to send messages on your phone or play video games. It's better to go to bed not too late, get up early the next day and review what you studied the day before.

8 ..... : You can test each other on what you need to know. For example, if you are studying history, say the name of an important event and then your friend can say the date, or say the date and he/she can try to say the event.

9 ..... : Find time to do some physical activity at the weekend or during the week.

## UNIT 1

### PRESENT SIMPLE AND PRESENT CONTINUOUS

#### Present simple

We use the **present simple** to talk about things that are always true or that happen regularly. We often use it with words like *often, usually, every day, twice a week*, etc.

*I usually work hard.*

*She learns English at school.*

*Does he work here? No, he doesn't.*

*Do they often go to the cinema? Yes, they do.*

#### Spelling: third person -s

Most verbs, add -s	<i>learns, works, lives, walks</i>
verbs that end in -o, -s, -sh, -ch, -x and -zz add -es	<i>goes, misses, watches, boxes, buzzes</i>
verbs that end in consonant + -y, remove the -y and add -ies	<i>studies, carries</i>
irregular verbs	<i>have → has</i>

#### Present continuous

We use the **present continuous** to talk about things that are happening now or at the moment. We often use it with words like *now, at the moment, today, this week*, etc.

*I'm teaching my brother to swim at the moment.*

*They're playing tennis now.*

*You aren't practising the piano much this week.*

*Are we getting fitter? Yes, we are.*

#### Spelling: -ing form

Most verbs add -ing	<i>playing, going, learning</i>
verbs ending in -e, remove -e and add -ing	<i>live → living, make → making</i>
verbs ending in -ie, change the -ie to -y and add -ing	<i>lie → lying</i>
one-syllable verbs ending in a vowel + a consonant (except w, x or y), double the consonant and add -ing	<i>sit → sitting, swim → swimming</i>
two-syllable verbs ending in a stressed vowel + a consonant, double the consonant and add -ing	<i>begin → beginning (but open → opening)</i>
In British English, we double the final l in travel	<i>travel → travelling (American English: travel → traveling)</i>

## UNIT 2

### VERBS WE DON'T USUALLY USE IN THE CONTINUOUS

There are some verbs which we don't normally use in the present continuous:

- Verbs of thinking: *believe, understand, know, think, mean, hope.*  
*Scientists believe the Earth is 4.6 billion years old.* (not *Scientists are believing ...*)
- Verbs of liking and not liking: *like, hate, love, want, need, prefer.*  
*I like those monkeys over there.* (not *I'm liking ...*)
- Verbs of owning: *own, belong, have.*  
*That coat belongs to me.* (not *That coat's belonging ...*)
- Verbs to describe sensations: *see, feel, hear, smell, taste.*

However, we can use the present continuous to say how someone looks or feels now.

*How do you feel today? I feel better.*

or *How are you feeling today? I'm feeling better.*

We often use *can* with these verbs.

*I can hear the sea from my bedroom.* (not *I'm hearing*)

- When *think* means 'have an opinion' about something, we do not use the continuous.

*Scientists think there are about 1,000 wild pandas left.* (not *Scientists are thinking ...*)
